1. Hiking Guide Program

The Hiking Guide program trains and certifies participants to guide on and off-trail on all types of hiking terrain, and includes day-hikes and multi-day backpacking trips.

There are three components to the Hiking Guide Program. The first is the Assistant Hiking Guide course. This is followed by a supervised apprenticeship. The final component is the Hiking Guide Exam.

Assistant Hiking Guide Course

This 9-day course combines training and certification. The first 4 days focus on training; this is followed by 4 days of assessment including a 3 day backpacking trip. The final day includes a written exam and optional personal interview. The expectation is that participants arrive with developed recreational skills and are ready to learn the application of “guiding skills”.

Hiking Guide Exam

The Assistant Hiking Guide course is a prerequisite to the Hiking Guide exam. Assistant Hiking Guides should complete one full season of supervised guiding before applying to the Hiking Guide exam. The Hiking Guide Exam takes place over 6 days and includes a 4 day backpacking trip. The final day includes a written exam and optional personal interview.

If you have already completed the Assistant Hiking Guide course and are applying to the Hiking Guide exam, complete the Hiking Guide application package (click on Hiking Guide on the ACMG web site or call the Program office for the Hiking Guide Application Package).

If you have not completed the Assistant Hiking Guide course, continue with this application package.

2. NOTICE TO PARTICIPANTS OF PROFESSIONAL GUIDE TRAINING COURSES – INCREASED RISK

TRU and the ACMG provide training intended to develop professional skiing, climbing, hiking, rescue, and wilderness travel guides. To train professional guides it is necessary for students to participate in activities that have higher levels of risk than what may be considered reasonable by entry-level, intermediate, novice, commercial guiding, or recreational standards. This may include, but is not limited to activities such as: lead climbing where the climber places his or her own protective equipment, climbing without helmets, travel and decision making in avalanche terrain, climbing and rescue in a multi-pitch environment, students driving program vehicles, hiking in unusually rough and remote terrain, stress from examination and grading processes, students making route and hazard assessment decisions on behalf of other students, unsupervised activities; and continuing with an activity when it may not be considered reasonable by entry-level, intermediate, novice, commercial guiding, or recreational standards (for example, when fatigued, in inclement weather, or in high hazard conditions).

Waiver and Release of Liability

AT THE START OF EACH COURSE or EXAM YOU ARE REQUIRED TO SIGN A LEGAL RELEASE DOCUMENT (Waiver). A SAMPLE WAIVER IS INCLUDED IN THIS APPLICATION PACKAGE. WE RECOMMEND YOU SEEK LEGAL ADVICE IF YOU HAVE QUESTIONS.

ASSUMPTION OF RISKS – AVALANCHES, ALPINE TERRAIN, SKI TERRAIN, CLIMBING TERRAIN, WILDERNESS TRAVEL, WEATHER, ETC.

I am aware that skiing, climbing, hiking, rescue, wilderness travel, and transportation involves risks, dangers and hazards in addition to those normally associated with travel in land, and air based wilderness environments. Avalanches occur frequently in the alpine terrain used for skiing and climbing and may be caused by but not limited to natural forces or by climbers or skiers. Rock fall, ice fall, climber falls, and skier falls occur frequently in the alpine terrain used for climbing and skiing and may be caused by but not limited to natural forces or by climbers or skiers. Bear or other wildlife attacks, rough or irregular terrain, and hiker falls are frequent hazards in the wilderness terrain used for hiking and may be caused by natural forces or hikers. Vehicle rollovers, overloaded roof racks, pulling trailers, inexperienced drivers, and hazardous driving conditions may occur in the type of transportation used for skiing, climbing, hiking, rescue, and wilderness travel and may be caused by but not limited to natural forces or people.

I acknowledge and accept that TRU or the ACMG and their staff may fail to predict whether the terrain used is safe for skiing, climbing, hiking, rescue, wilderness travel, and transportation or whether an accident may occur. The terrain used for skiing, climbing, hiking, rescue, and wilderness travel is uncontrolled, unmarked, not inspected and involves many risks, dangers and hazards. These may include, but are not limited to: attacks by bears and other animals, ice and snow cornices, trees, falling trees, tree wells, tree stumps, creeks, rocks, boulders, forest deadfall,

holes and depressions on or below the snow surface, steep slopes, cliffs, ice fall and rock fall, variable and difficult snow conditions, crevasses, snowcat roads and road banks, fences and other man-made structures, impact or collision with other skiers or climbers; hail, lightning, inclement weather, failure to predict weather, vehicle rollovers, overloaded roof racks, pulling trailers, unsafe driving, unsafe road conditions; the failure to ski or climb safely within one's own ability or within designated areas; human error, failure to forecast or recognize a hazardous situation, negligence of other skiers, climbers, hikers, or rescuers; and NEGLIGENCE ON THE PART OF OTHER STUDENTS, TRU, ACMG OR THEIR GUIDES, EMPLOYEES, AND CONTRACTORS INCLUDING THE FAILURE OF TRU OR ACMG OR THEIR GUIDES, EMPLOYEES, AND CONTRACTORS TO SAFEGUARD OR PROTECT ME FROM THE RISKS, DANGERS AND HAZARDS OF WILDERNESS SKIING, CLIMBING, HIKING, RESCUE, WILDERNESS TRAVEL, AND TRANSPORTATION. Communication in the terrain used is difficult and in the event of an accident, rescue and medical treatment may not be available. Weather conditions may be extreme and can change rapidly and without warning, making travel by any means hazardous.

I AM AWARE OF THE RISKS, DANGERS AND HAZARDS ASSOCIATED WITH SKIING, CLIMBING, HIKING, RESCUE, WILDERNESS TRAVEL, AND TRANSPORTATION AND I FREELY ACCEPT AND FULLY ASSUME ALL SUCH RISKS, DANGERS AND HAZARDS AND THE POSSIBILITY OF PERSONAL INJURY, DEATH, PROPERTY DAMAGE OR LOSS RESULTING THERE FROM.

NOTICE TO SNOWBOARDERS AND TELEMAR SKIERS – INCREASED RISK

Unlike alpine ski boot and binding systems, snowboard and some telemark boot and binding systems are not designed or intended to release and will not release under normal circumstances. The use of such systems or the use of a safety strap or retention device by snowboarders or telemark skiers will increase the risk of not surviving an avalanche.

NOTICE TO PARTICIPANTS OF PROFESSIONAL GUIDE TRAINING COURSES – INCREASED RISK
